## Misses' and Juniors' Summer Fashions

### Sports Togs Favored, and Even the Tiniest Tot Wears the Straight-Lined Box-Pleated Frock

### Simple Millinery For Small Maids

New York, July 30.—As usual, misses, juniors and tiny tots frocks and outer garments follow the same general lines of grown up designs. The shop windows are gay with flowered muslins, voiles and dainty party frocks of bouclings and embroidered bastistes, and even nets and taffetas and the flowered summer silks are not too grown up for small people. One especially pretty little frock of taffeta and net shown in a shop devoted almost entirely to children's

things, is trimmed with daisies, a band of them forming the girdle, a cluster here and there on the skirt, and one on either shoulder. Another Frenchy little party frock of taffeta and crepe is made sleeveless, with a smartly flaring ruffled skirt; this design, however, will hardly appeal to American mothers although it is very charming as a picture. An effective simple dress for summer is of plain white voile, trimmed with bands of old time fagoting arranged to form a

round yoke and banding the cuffs. Children's and Junior's Millinery Most Charming For the very small person there are charming little fitted caps of lace and net, and fetching little close fitting bonnets of pale pink and blue Georgette trimmed with a cluster of tiny flowers or a rosette of ribbon. For the older girls the wide brimmed Ban-kok and Wen Chows are appropriate.

Misses' Jumper Dress

trimmed with a touch of bright color in wool or ribbon, or a simple band of velvet or elastic silk banding the crown. These sports bands with the stripes running around or up and down, are very becoming to the young girl and harmonize well with a plain wash frock or a dark serge or linen suit.

**Pongee Popular For Girls**  
Natural colored pongee, trimmed with contrasting colors, blues, greens, and similar shades, is well liked for the shoe top suits now so popular with girls of from six to sixteen. The blouses worn with these suits are usually fashioned of the sheer cottons, voiles, marquisettes and nets, or the tub silks and satins, crepe de Chine, China silk and pongee. The light colored lawns, dimities, and linens are also popular for girls being fashioned into simple frocks, middie dresses and like models. The wide stripes, so popular for grownup sport skirts and suits, are also popular with the young generation being fashioned into

A New Collar As a Feature

Norfolk suits, modified Russian and middie frocks and similar loose lined models, becoming to the growing girl. The sports styles are popular, too, smart little coats of silk and wool Jersey in the popular bright tones being worn over tub dresses of linen, duck, pique and the softer cottons, voiles, crepes and the like.

In the shoe top suits also, the Pol-et twills, novelty wool mixtures, shepherd checks, gabardines, and serges are equally as popular as the pongees and Shantung.

### Net and Taffeta Dresses For Afternoons

For party and summer afternoons there are simple net frocks for juniors and misses, trimmed very effectively with lace and the simplest of ribbon trimmings, tucks, smocking and ruffles, narrow ruffles and shir-rings.

The very tiny lot in her first short frocks, wears lawn, batiste, dotted Swiss, crepe and fine linen. Most of these little dresses are fashioned into straight hanging, box pleated dresses

---as the merest toddlers are wearing these models now adays. Smocking and tucks are effective trimming and hand embroidery plays an important part. White is most favored for the very small maid, altho the pale pinks, blues, and other soft shades are used considerably too. The separate coat to wear over the fluffy dress, is fashioned of taffeta, the novelty checks, serge, and Bedford cord. One of the prettiest coats of the season is developed in dark blue Bedford cord with collar and cuffs of white broadcloth, closed with large white bone buttons. The collar and cuffs may be made removable, thus doing away with the impractical side of the white.

## All U. S. Begins Automobile Tour On August 6th

### National Touring Week To Lure the Nation to Take the Road

The greatest organized automobile travel this country has ever seen is assured for National Touring Week, the remarkable movement that is promoting a general starting on vacation automobile trips August 5 by the motorists of this country.

The idea of an official automobile tour participated in by every motorist who can make his vacation coincide with the week of August 5 has gripped the interest of the owners of motor cars through the land. The early momentum the movement has gained has surprised the originators of the idea. All Americans who think of automobiles and vacations in the same breath are thinking with the red letter date August 5 branded on the thought.

The automobile trade and automobile clubs have enlisted in the movement, and are driving it ahead with their characteristic force. Newspapers, sensing the popular appeal of so novel an outing, are hurrying its development along.

That American motorists should spend their vacations in their automobiles on the road is common sense. That as many of them should attempt to do so on an official touring week is merely an efficient method of arousing the nation to seeing America now.

The organization of National Touring Week is neglecting no department or phase of this nation wide motoring outing. Hotels are being stimulated to provide for the week, and they are making extra preparations to care for the exceptional traveler at that time. Supply dealers, are strengthening their organizations to meet the demands of the greatest incident mileage they have ever faced.

"See America first by seeing your own state first," is the sentiment back of this national outing a wheel. Coupled with it is the reminder to the motorist that the finest vacation offered him is the one nearest—a vacation tour of his own state in his own car.

The average automobilist knows less about the beauty and natural wonders of his own state than any other part of his country, notwithstanding the fact that, whatever his state, spots of picturesque charm are hidden without number within a radius of a hundred miles of his garage. With a road map and an intelligent eye for guide posts, he may link them on a circuit that will stand forth as the tour of his life.

The motorist who fails to tune up his car for the week of August 5 is jeopardizing the full joy of his vacation.

## Health Hints

The United States Public Health Service asks do you

Think dog muzzling cruel and then marvel at the spread of rabies?

Carefully select your brand of liquor and then feed your children unpasteurized milk?

Repeat the Golden Rule and then sneeze in somebody's face?

Go camping for your health and then place your toilet so that it will drain into your water supply?

### A BASEBALL SCOUT'S COMPLAINT

Hugh S. Fullerton has a short story in the American Magazine in which a professional baseball scout laments the tricks of bush league managers. One of them says:

"If a scout does not keep his eyes

## HORLICK'S Malted Milk

THE ORIGINAL

Made from clean, rich milk with the extract of select malted grain, malted in our own Malt Houses under sanitary conditions. Infants and children thrive on it. Agree with the weakest stomach of the invalid or the aged. Needs no cooking nor addition of milk. Nourishes and sustains more than tea, coffee, etc. Should be kept at home or when traveling. A nutritious food-drink may be prepared in a moment. A glassful hot before retiring induces refreshing sleep. Also in lunch tablet form for business men. Substitutes Cost YOU Same Price.

**Take a Package Home**

open those bush managers are worse than a bunch of salted mine promoters, so I don't ask any questions, but go around snooping after Musser. Everyone in Muskegon knows all about that game, but no one knows Musser—new man. I had to hunt up the manager and take a chance of having acid enough to test his gold bricks. But this one was different. When I asked about Musser, he said, Shush-sh-sh! I had to walk him around in front of the mirrors so the bartender can't hear before he'll say a word. Then he leans over and says, Shush-sh-sh! College man. Rich daddy. Pitching under fake name. Afraid he'll lose his amateur standing. Hired him to pitch one game, won a sockful. Musser would not even stay to supper. Shush-sh-sh!"

### GARAGE TANK WHICH MEASURES OIL ACCURATELY

An accurate and simple device for measuring gasoline, described in the August Popular Mechanics Magazine, was constructed by a garage owner in Vermont. It consists of a 10 gallon tank in which there is a float; the latter is attached to a pointer that rises and falls in front of a graduated scale as the contents of the can is decreased and increased. A customer, desiring to fuel his machine, simply connects his oil tank with the 10 gallon reservoir by means of a hose provided, and observes the flow by the movement of the marker.

### BANQUET HELD IN BARN WHILE COWS ARE MILKED

For the purpose of emphasizing the sanitary condition of the dairy of the

state hospital at Napa, California, the Napa County Live Stock Association held its annual banquet in the barn where the cattle are kept, according to the Popular Mechanics Magazine. Long tables were placed in an area between rows of stalls and covers laid for 120 persons. In the same room with the banqueters were 200 cows in their stalls. While the men ate, the cows were milked by the employees of the dairy.

### CHAMOIS SKIN MAY EXPLODE GASOLINE

In the Woman's Home Companion, C. H. Claudy says: "Under certain conditions of temperature, barometric pressure, and the amount of electricity in the air, gasoline poured through a chamois skin may cause a spark sufficient to set the gasoline on fire. I cannot attempt to tell you why, but only that such is certainly the fact. It is perfectly possible to have used a chamois skin for years and never had a fire. It is also perfectly possible to light a match and put it out by plunging it suddenly into gasoline, but it is an experiment no one cares to try. "Wire gauze of a sufficiently fine mesh is much to be preferred to chamois skin, and is a precaution which belongs to the campaign for Safety First."

### VALUABLE ADVICE

"You are always asking me for advice, but you never seem to take any that I give." "I know it. You see, I am frequently in doubt before I consult you as to what is the best thing not to do."

## WANTED HORSES & MULES

I will be in the following towns to buy horses and mules from 4 year old and upwards and from 1000 lbs. to 1600 lbs. or 1700 lbs.

Preston, Idaho,	Monday, All Day	July 31, 1916
Franklin "	Tuesday, Forenoon	Aug. 1, "
Lewiston, Utah,	" Afternoon	" 1, "
Clarkston, "	Wed'day, Forenoon	" 2, "
Newton "	" Afternoon	" 2, "
Mendon "	Thursday, Forenoon	" 3, "
Wellsville "	" Afternoon	" 3, "
Hyrum "	Friday, Forenoon	" 4, "
Paradise "	" Afternoon	" 4, "
Logan "	SATURDAY, ALL DAY	" 5, "

At Thatcher's Barn

Now take this opportunity and bring in your horses and mules as I am the only man in the United States that is buying horses and mules going direct to their respective jobs, and I pay the absolute top price. No middle man in this job.
